

Landscape Change in 2020

Grow West is an ambitious landscape restoration program that works with local communities in the west of Melbourne to create a sustainable future.

Grow West's vision is to rejuvenate 10,000 hectares of land by connecting the Brisbane Ranges National Park, Werribee Gorge State Park and Lerderderg State Park through a mosaic of restoration works on private and public property.

G.J Gardener Homes Bacchus Marsh via 15 Trees and Tripod Farmers Group Bacchus Marsh sponsored 480 indigenous plants to be planted on a local farm in Rowsley in 2020. Getting the trees in the ground was a family affair with even the kids getting involved!

The revegetation project has helped stabilise parts of the Whitehorse Creek and has contributed to the Werribee Gorge State Park biolink.
